

Are you a good neighbor to your environment?

Everyone plays a part in protecting water quality. Washing and dumping of wastes into the storm drain is a direct threat to our lakes and streams. By keeping a neighborhood watch on your streets and shopping areas, you play a big part in keeping our lakes and streams clean and healthy. Please report illegal and accidental dumping to your local authorities.

Local stormwater agencies, including participants of the Douglas County Stormwater Co-op Group, SPLASH and SEMSWA, are teaming together to bring you this message. We take this so seriously that we posted this ad rather than send you more garbage in the mail. Together, with your help, we can make a difference in keeping our waterways clean. Contact your local agency to find out how to properly discard your household chemicals.
